

Project 3 – GraphMan

By: Luis Moraguez

COP4415 – Data Structures

Fall 2021

Due: December 5th, 2021

Environment

- OS – Windows 10 (Running Ubuntu as Linux Subsystem for compiling)
- IDE – CLion 2021.2.1

Running Main Program

- Provide file path as argument

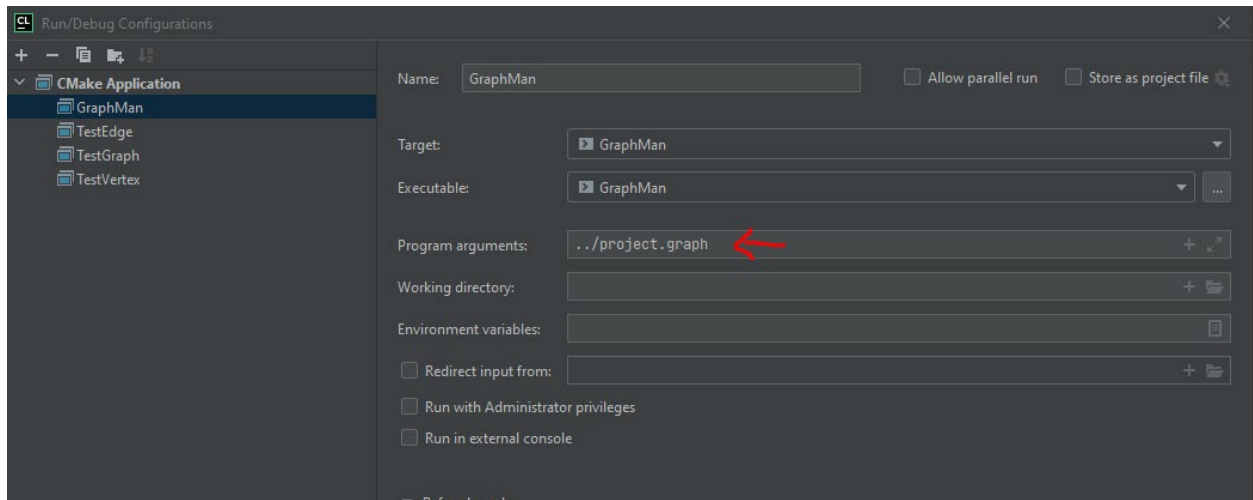

Figure 3 - Running with file path as argument

```
Run: GraphMan x
Welcome to GraphMan
-----
Please select one of the following tasks:
[1] Shortest path between two nodes
[2] Print adjacency list
[3] Breadth-first search
[4] Depth-first search
[5] Depth-first search (node edges are ordered depending on the increasing degree of the destination node)
[6] Print Graph
[7] Exit

Enter your selection: 6

Edge Class Tests

The image shows a terminal window titled "TestEdge" with a dark background. The command prompt shows the execution of `C:\WINDOWS\system32\wsl.exe --distribution Ubuntu-20.04` in the directory `'/mnt/c/Users/itadmin/OneDrive - Florida Polytechnic'`. The output displays the results of unit tests for the `Edge` class, including getter and setter tests for `Name`, `Source`, `Destination`, and `Weight` properties, as well as tests for printing methods. All tests passed, and the process finished with exit code 0.

```
Run: C:\WINDOWS\system32\wsl.exe --distribution Ubuntu-20.04
      '/mnt/c/Users/itadmin/OneDrive - Florida Polytechnic'
